Allowable Subject Matter

Claims 34 and 74-81 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach an internally decompressable container, in combination with a dielectric plate and a microwave source for processing using a plasma, with the power density of the microwaves input into the container being 1.2 W/cm² or higher, nor does the prior art further teach use of a second dielectric plate in addition to the first, as per claim 74, for instance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark H. Paschall whose telephone number is 571 272-4784. The examiner can normally be reached on 7am - 3pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robin Evans can be reached on 571-272-4777. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
